- Marty
- Phil

- Solicitation Letter Update

Phil reported that the solicitation letter is in the hands of Tom and Jim, who did some wordsmithing. Phil has yet to send it out. Needs fonts cleaned up and there needs to be clarification on credit card payments. Questions to be sent to Tom. Date of release is unknown.

Distribution was discussed. Attachments can't be made to Constant Contact. Discussion of embedding into the Constant Contact was made.

- NFPA Partnership

Phil reported there is excitement about the partnership. Lots of organizational changes at NFPA but it hasn't gone anywhere. They are still questioning how and where it would fit in. It will be brought up for more discussion at some future meeting and they will follow up with Phil sometime after that. Phil is dealing with Joe.

Phil is hesitant to pursue a permanent home at IAFF unless the NFPA potential were exhausted. He feels it would be embraced by IAFF, perhaps in the data section but he feels at this point, NFPA should have first right of refusal.

- Next Conference Call

Ed will circulate a "When is Good" to pick a date in a couple weeks. Phil is sure he'll know something by that point.
